PLEASE NOTE

If bobbling or pilling occurs on this fabric, this is not a problem and will not have any detrimental effect on the wearability of the fabric. Removal by a 'de-fuzzer' is the most effective method and returns fabric to its original appearance.

Pile fabrics, by their nature, do often have a tendency to pressure mark. This is a natural characteristic of this type of fine fabric. It does not in any way detract from the wearing ability of this quality fabric. We would recommend that customers are made aware of this point ahead of sale.

CLEANING/CARE

Machine washable at 40° maximum, gently pulling back into shape and refitting while slightly damp.

FIRE RETARDANCY

This fabric conforms to BS 5852 FR3 CRIB Ignition Source 5 when tested in conjunction with CMHR 35 foam.

COLOUR MATCHING

Every effort is made to ensure the closest possible colour match to our pattern books, but we are unable to guarantee an exact match. If you require to match to fabric, please send us a sample or request a stock cutting of the shade.
