Our Guarantee

At Mattison Contract Beds, we stand by the quality of our products and offer a guarantee for defects through proven material failure or faulty workmanship on a 'repair or replacement' basis.

Thank you for choosing to purchase with us; throughout our distinguished history at Mattison Contract Beds, we've provided products designed exclusively for the hotel and contract market. We stand by the quality of our products and offer a guarantee to give you extra peace of mind. Should a defect arise through proven material failure or faulty workmanship, Mattison Contract Beds guarantees to repair or replace the mattress or divan base in accordance with the following:

- This guarantee applies only to goods purchased from Mattison Contract Beds. Mattison Contract Beds does not distribute via resellers or retailers and any claims made on this basis will be invalid.
- The guarantee commences on the date of delivery and is effective for 5 years for mattresses and divans.
 - Headboards are guaranteed for 1 year.
 - Metal mechanisms within duo beds/guest beds and ottomans are guaranteed for 1 year.
 - Sofa bed metal 'opening' mechanisms are guaranteed for 2 years. The sofa bed frame is guaranteed for 1 year.
 - Mattress and bed models within the Mattison Contract Beds' Campus Collection range are guaranteed for 1 year.
- Any claim must be submitted to Mattison Contract Beds within one month of the apparent defect becoming evident.
- The claim must be supported by your original proof of purchase.
- In the event of a dispute, Mattison Contract Beds may request an independent third party inspection of the products by a recognised and qualified organisation such as Furniture Industry Research Association before agreeing to carry out repairs/replacements.
- Mattison Contract Beds will arrange transport and cover transportation costs of any faulty goods, from and to the delivery address on the original invoice, and our factory.
- Mattison Contract Beds shall not be liable for any transportation and carriage costs, customs and documentation costs on any replacement product outside the UK mainland.
- If the product in question has been discontinued and cannot be repaired, then Mattison Contract Beds reserves the right to supply an equivalent or similar alternative.
- Following a repair, the guarantee will remain valid from the date of the original purchase.
- Mattison Contract Beds shall not be liable for incidental or consequential damages arising out of the use or inability to use this product, or for breach of this or any other express or implied guarantee.
- The terms of this guarantee are governed by English law.
- This guarantee does not affect your statutory rights.
- The guarantee does not apply:
 - If the care instructions have not been followed;
 - Where there is evidence of abuse, misuse or damage through neglect or accident;
 - Where the mattress has not been turned or rotated in accordance with care instructions;
 - Where a mattress has been used with an unsuitable divan base or slatted bed frame;
 - If the products are soiled, stained or unhygienic.

Bed Care Guidelines

At Mattison Contract Beds, we strive to make excellent products which will assist in ensuring your guests have a perfect stay. These guidelines will help you to maintain and protect your mattresses and divan bases to maximise their lifetime.

Caring for your bed Installation

- Do allow the mattress to air before covering with a mattress protector and bed linen.
 - Do not bend the mattress.
 - Do not use excessive force when fitting divan castors/legs/glides.
 - Do not place a new mattress on an old divan base – this may invalidate the guarantee. Avoid using your new mattress on an old base as this can shorten the life expectancy and invalidate your guarantee.
 - Use a mattress protector which will help the life of the mattress and prevent any accidental soiling and so keep your guarantee valid.
 - Do not leave sheets, duvets or pillows on a sofa bed when folding it away as this can damage the metal folding action.
-

Caring for your bed Turning your mattress

Turning your mattress regularly helps the upholstery fillings to settle more evenly. This settlement of the upholstery fillings will be concentrated more in the centre of the mattress where you may see your impression (where your heaviest part of your body lays) – this is perfectly normal. Pocket sprung mattresses have deeper layers of upholstery and so take more time to settle. Turning of a mattress will involve rotating the mattress, and may also involve flipping the mattress.

- It is recommended that your mattress is turned on a quarterly basis, in accordance with our quarterly turning labels (if supplied).
- Do separate zipped/Velcro-&-linked mattresses before rotating and turning.
- Flipping of your mattress is not required where the mattress is sold as 'no turn', i.e. for a memory foam mattress or sofa bed mattress. 'No turn' mattresses should still be rotated quarterly to reduce the wear and tear of body weight on the springs.

ROTATING THE MATTRESS

Leaving the mattress in-situ on the base and rotating the mattress in a clockwise direction so that the foot and head ends are swapped with one another.

FLIPPING THE MATTRESS

The mattress should be flipped over so that the face which was the sleeping surface is now directly on the bed base.

Caring for your bed Cleaning

- Do treat stains and spills with dry towels or paper towels. Never use detergents or chemical cleaners as they damage materials. Specific cleaning instructions for fabrics provided by Mattison Contract Beds are available upon request. For customers own material, you will need to contact the establishment from which the fabric was acquired.
- Do not attempt to clean or reuse mattresses after urinary saturation – the mattresses should be discarded as permanent, untreatable damage will have occurred.
- Do not attempt to spot clean the mattress by any wet or damp means – this risks diluting or even removing the fire retardant qualities of the mattress fabric, which has been treated to comply with BS 7177 (crib 5) to satisfy the law for hotel use.

STANDARD SIZES

Our standard bed sizes are:

- 75cm x 190cm
- 90cm x 190cm
- 100cm x 200cm
- 120cm x 190cm
- 135cm x 190cm
- 150cm x 200cm
- 180cm x 200cm

Bespoke, made-to-measure sizes are also available upon request. Note that the above measurements are subject to a tolerance of ± 20 mm. Orders can be placed in either metric or Imperial measurements.

FOOT OPTIONS

All divan bases are fitted with castors as standard. All bases can be fitted with castors or glides (or a combination of both). Customers own choice of feet design can also be provided prior to manufacturing to provide a unique level of customisation.

SPLIT BASES

We advise that deep base double divans be manufactured in two halves for ease of access in widths up to 150cm, an additional charge for this feature applies. Bases with a width of 180cm and larger will automatically be manufactured in two halves at no extra cost. Bases can be split North-to-South or East-to-West. Please inform us at time of order of any split and your direction of preference.

FIRE RETARDANCY

All mattresses and divan bases are fully compliant with BS 7177 (Medium Hazard) Crib 5 Fire Retardancy standards for hotel and contract use.

CUSTOMERS OWN MATERIAL

Divan bases and headboards can be upholstered in our standard range of fabric options available upon request - or supply your own for a truly unique finish - subject to suitable abrasion tests and compliance with Fire Retardancy regulations. A fire retardancy/treatment certificate will be required to accompany the fabric prior to manufacturing.

ZIP & LINK / VELCRO & LINK

To offer flexibility in terms of rooms, the mattresses can be zipped and linked together to turn a twin room into a double, or vice versa. As an alternative to zip & link, we also offer Velcro and link.

5 YEAR GUARANTEE

At Mattison Contract Beds, we stand by the quality of our products and offer a 5 year guarantee for defects through proven material failure or faulty workmanship on a 'repair or replacement' basis. T&Cs apply.

ENVIRONMENTALLY SUSTAINABLE

As part of our ongoing commitment to environmentally sustainable manufacturing, we ensure responsible sourcing of materials and endeavour to ensure that no waste goes to landfill.

DRAWER OPTIONS

We offer a range of drawer options to complement our standard divan base options - with 1-drawer, 2-drawer, 3-drawer, continental drawer or slider options. Suitcase storage options are available with one or two openings. Speak with our sales team for more info.

INDUSTRY
PARTNER

135cm x 190cm deep platform top divan on twin-wheel castors with a 142cm high floor-standing Azalea headboard upholstered in Presto Wheat

Club Class

The Club Class mattress is our flagship model, manufactured using techniques perfected over our distinguished history. It offers the ultimate in comfort and luxury, incorporating a luxurious 2,000 pocket sprung mattress with deep fillings comprising of silk, wool and cotton with hand side stitched borders.

Also featured on this model are flag stitched turning handles on all sides - making it considerably easier for housekeeping staff to turn the mattress - and breather vents to assist in keeping the mattress ventilated in all seasons. The Club Class mattress is completed with tufting; not only creating

a beautiful decorative finish to the mattress, but also creating high loft cushions of super-soft comfort. Having been designed specifically for the hotel and contract market, the durable and breathable anti-bed bug treated fabric will stand the test of time. EULAN® SPA 01 treatment has been applied to the mattress ticking to offer high-performant bug protection and is Ökotex-Standard 100 approved. This treatment is odourless and guaranteed skin-safe.

Majesty Pillowtop

The Majesty Pillowtop mattress offers the unparalleled support of a pocket sprung mattress finished with the exquisite comfort of a cushioned pillow top layer. The Majesty Pillowtop is a 1,000 pocket, medium tension, 'No Turn' mattress extravagantly filled with silk and wool - these natural fillings help to regulate body temperature to provide a better night's sleep. The pillowtop layer is discreetly attached to the mattress and as a 'No Turn' mattress only requires rotating on the base rather than flipping to reduce wear.

Having been designed specifically for the hotel and contract

market, the durable and breathable anti-bed bug treated fabric will stand the test of time. EULAN® SPA 01 treatment has been applied to the mattress ticking to offer high-performant bug protection and is Ökotex-Standard 100 approved. This treatment is odourless and guaranteed skin-safe. Pair the mattress with a host of options for the bed base to suit requirements - and opt to upholster in our range of fabric options - or supply your own.

Apollo Pine Bunk

The Apollo pine bunk bed frame is a heavy duty bunk bed suitable for all contract use and conforms with British consumer safety regulations (BS EN 747). Multi-functional and ultra-secure, the Apollo frame is available in 2 widths - 75cm and 90cm. This is a traditional bunk bed with a solid pine frame and a varnished finish. For quantity orders, alternative finishes are available upon request. The bunk bed frame is detachable and can be used as two single bed frames to maximise room occupancy and provide versatility

within rooms. Special features are a fixed position ladder which can be assembled on either side of the frame, and a solid slatted base, providing firmer support and allowing air to circulate beneath the mattresses.

The maximum weight load for each frame is 120kg and is suitable for adults and children alike. Note that the frame can accommodate mattress depths up to 200mm.

APOLLO PINE BUNK BED SPECIFICATION | to accommodate 75cm wide x 190cm long mattresses

135cm x 190cm floating bed base divan with a 71cm wall-mounted Sunflower headboard upholstered in Proposta Charcoal

Floating Bed Base

For those wanting something a little different and guaranteed to capture guests attention, this boutique-style floating bed base frame is ideal. It combines contemporary, modern style with optimal support and comfort. The floating bed base frame features an inset bed frame/plinth to allow the platform top and mattress to effectively float above the floor.

Any mattress within the Mattison Contract Beds range can be paired with the floating bed base frame to create a bed set which won't go unnoticed.

For those wanting to make the bed the focal centrepiece of their rooms, position LED strip lighting under the platform top section to further enhance the illusion of a floating bed base whilst providing guests with unobstrusive night-lighting.

A Bed overall width(s):
90/100/135/150/180cm

B Bed overall length: 190cm/200cm

C Shallow platform top height: 205mm

D Plinth height: 150mm

Mattison Contract Beds offer a range of mattresses which can be paired with the floating bed base frame. Height of the plinth/platform top sections can be altered upon request.

MATTRESSES SOLD SEPARATELY

Mattison Contract Beds offer a range of mattresses which can be paired with the floating bed base frame.

90cm x 190cm (x2) deep platform top divans on shepherd castors with 142cm high floor-standing Fresia headboard upholstered in Presto Fudge

Zip & Link

A zip & link mattress is essentially two separate mattresses that can be zipped together to form one bed or separated to make two individual beds; this is an ideal solution for hotels and guest houses where the bed can be adapted to suit guest requirements. Whether it be a bed for a guest house or spare room, zip and link offers flexibility for your sleeping requirements.

First and foremost, those sleeping on zip & link beds will not be able to feel the zips - the zippers are situated on the sides at the top and bottom of the mattress to enable the mattresses to be joined together in all combinations of rotation. If ordered as a set, divan bases are linked using a linking bar. Zip & link has distinct advantages over a full-size mattress - each side of the bed is entirely independent of each other, enables delivery where access may be an issue, and it makes the job of turning mattresses significantly easier for housekeeping! Do note when selecting headboards that you will need 2 single bed-mounted headboards (or extra-wide if wall-mounted) to ensure that the beds can be separated without removal.

90cm x 190cm (x2) deep platform top divans on shepherd castors with 142cm high floor-standing Fresia headboard upholstered in Presto Fudge

Velcro & Link

A Velcro® & link mattress is essentially two separate mattresses that can be joined together to form one bed or separated to make two individual beds; this is an ideal solution for hotels and guest houses where the bed can be adapted to suit guest requirements. Whether it be a bed for a guest house or spare room, Velcro® and link offers flexibility for your sleeping requirements.

First and foremost, those sleeping on Velcro® & link beds will not be able to feel the join - the Velcro® is hidden underneath a flap on the top and bottom of the mattress to enable the mattresses to be joined together in all combinations of rotation. If ordered as a set, divan bases are linked using a linking bar. Velcro® & link has distinct advantages over a full-size mattress - each side of the bed is entirely independent of each other, enables delivery where access may be an issue, and it makes the job of turning mattresses significantly easier for housekeeping! Do note when selecting headboards that you will need 2 single bed-mounted headboards (or extra-wide if wall-mounted) to ensure that the beds can be separated without removal.

135cm x 200cm guest bed divan on shepherd castors with a 135cm wide floor-standing Fresia headboard upholstered in Faux Linen Cream

Guest Beds

The guest bed / duo bed option is the perfect choice for combining contemporary styling with functionality and versatility where space is at a premium.

With the underbed folded away, you have yourself a space-saving single bed on a non-sprung platform top divan. Slide out the underbed mounted on integrated castors to reveal a versatile underbed; and take advantage of the spring-assisted H-frame metal legs to raise the underbed.

Divan bases and headboards can be upholstered in our standard range of fabric options available upon request - or supply your own for a truly unique finish - subject to suitable abrasion tests and compliance with Fire Retardancy regulations. A fire retardancy/treatment certificate will be required to accompany the fabric prior to manufacturing.

Any mattress within our range can be paired with the occasional-use open coil mattress supplied with the underbed to create your guest bed to a price point and quality to suit you and your guests. The mattress is completed with tufting; not only creating a beautiful decorative finish to the mattress, but also creating high loft cushions of super-soft comfort. Also featured on this model are flag stitched turning handles - making it considerably easier for housekeeping staff to turn the mattress - and breather vents to assist in keeping the mattress well-ventilated in all seasons.

Headboards sold separately.

90cm x 200cm guest bed divan on shepherd castors with a 90cm wide floor-standing Fresia headboard upholstered in Faux Linen Cream

Guest Beds

A Bed overall length: 2000mm

B Bed overall width(s):

D Underbed overall width:
750mm for 900mm wide beds
900mm for widths greater than 900mm

E Standard base height: 400mm

For 180cm wide beds, bases can be configured to include 2 underbeds. Call our Sales team for more info.

135cm x 190cm suitcase storage divan on shepherd castors with a 142cm high floor-standing Azalea headboard upholstered in Faux Linen Linen

Suitcase Storage

Perfect for guest rooms or those who are pushed for space, the suitcase storage bed bases help you utilise every inch of storage available and allow guests to keep their luggage stored discretely whilst keeping rooms clutter-free. With a generous 285mm opening to accommodate deep suitcases, the additional storage space offered by this style of divan base is maximised.

The suitcase opening will be on one side as standard, with an option for opening both sides (in double sizes and above) and exposed; an upholstered velcro flap is available on request.
